

# Use Microsoft Translator

The image displays two screenshots of a 'new job' form. The top screenshot shows the form with the 'description' field containing 'replace lightbulb'. A red circle highlights the 'translate!' button, with the text 'click!' written next to it. The bottom screenshot shows the same form, but the 'description' field now contains 'replace lightbulb it:[ sostituire la lampadin]'. A red circle highlights the translated text. Both screenshots show the form is 'powered by Microsoft Translator' and have 'cancel' and 'save' buttons at the bottom.

Samfex integrates Microsoft Translator for basic translation purposes.

Once the description is entered click the **translate!** button. The translation will be added to the existing description.

- ✓ System language is the base language
- ✓ One target language can be selected
- ✓ Bing AppID is required
- ✓ No liability for correct translations

powered by Microsoft Translator
